- ShadCN UI
- JavaScript / TypeScript
- Next.js 14
- Python
- Figma
- Docker / Docker Compose
- SQL / NoSQL
- Node.js / Express.js

Katlego Mabaso

Software Engineer

IN DEVELOPMENT

AquaSense

Aquasense is a user-friendly website and mobile app dedicated to providing timely and accurate updates on water-related issues in your municipality.

With Aquasense, you no longer have to wonder if your municipality has resolved its water problems. Our platform collects data from official sources, analyzes reports, and verifies information to deliver reliable updates directly to you. Whether it's a burst pipe, water contamination, or infrastructure repairs, we track the progress and inform you when the issues are resolved.

WORK EXPERIENCE

Supervisor

2019 - 2020

WhiteFox Ltd.

As a supervisor of an online delivery service, my duties included overseeing daily operations, managing delivery staff, and ensuring timely and accurate order fulfilment. I coordinated logistics, track deliveries, and address customer inquiries. I had to maintain efficiency, ensuring customer satisfaction, and optimizing the delivery process.

Freelancer

2022 - Present

As a software developer freelancer, I'm involved in collaborating with clients to understand their requirements, designing and implementing software solutions, conducting thorough testing, and delivering high-quality, customized projects. I enjoy managing project timelines and communication while leveraging my expertise to provide efficient and tailored software solutions.

Junior Software Developer

2024 - Present

New Dawn Technologies

Design, develop, and test software applications using React.js (Next.js - front-end), Node.js (Express-back-end). Implement clean, maintainable, and efficient code adhering to best practices. Collaborate with cross-functional teams (e.g., designers, product managers) to understand and implement requirements. Troubleshoot and debug technical issues. Stay up-to-date with the latest advancements in React/Node.js technologies and best practices. Participate in code reviews and knowledge sharing within the team.
